VALOR

SPECIALTY PRODUCTS INC.

Custom Size Vinyl Shutters *...made to order*

LOUVER

PANEL

Valor Exterior Decorative Shutters are manufactured from a durable polypropylene compound with the colour moulded right into the plastic. Wood grain texture and beaded detailing give our shutters an elegant look, and are available in many styles to suit virtually any home. Although our shutters are custom made to size; because they are constructed using both extruded and moulded parts it's necessary to pay attention to the minimum and maximum lengths and width availability for each style.

VALOR

SPECIALTY PRODUCTS INC.

Custom PVC Millwork *...made to order*

Valor Specialty Products Inc. produces one of the broadest ranges of PVC Millwork, allowing us to provide the best product solution. Decorative elements - whether trim, accents, moulding, louvers or full-sized gable pediments - are some of the highest-impact architectural details you can add to a home. Properly selected, they become the aesthetic focal point of design and impact the style and curb appeal of a property. PVC Millwork is more affordable, easier to install, and maintains appeal for decades.

SPECIALTY PRODUCTS INC.

PVC Gable Accents

...made to order

PRODUCT DESIGN: Each style has unique elements such as:

- Face Width
- Lamination/Multi layered
- Solid Back/Open Back
- Nail Flange or Jamb/or None
- Some may be cut to conform to a specific Pitch, others are left to fit on site
- Some may have KD (Knock-Down) Options to reduce shipping size and potential damage.

Generally all Elements in a particular style will be left the same regardless of the size ordered. Some elements such as radius' on arch Beam models will use a % of the width to determine the Radius of the beam, and then it may be rounded off. This ensures a consistent look even when small and large Accents the same style are installed on the same house. As a result, some style may not conform well to extreme widths and low pitches, or narrow widths and extreme pitches. In these cases we suggest consulting our office before ordering.

Models MGA-110 to MGA-210

Post wraps above do not include Caps or Bases.

IMPORTANT NOTE Post Wraps can be sold in three different formats: A) KD (Knock-Down/ Unassembled) B) Split-"L" (2-L sections) C) U-Construction, where the Wrap is assembled with a single Panel Loose (removable) to allow it to be installed around a post. ALL orders will be produced in a KD-Format unless otherwise specified on your order.
NOTE: The KD format is the preferred method if the product is being shipped, as they take less room and are therefore cheaper to ship, and are less prone to damage. SPLIT "L" or U-Construction formats may require additional packaging and shipping premiums applied.

VALOR

SPECIALTY PRODUCTS INC.

Paint Services

Paint

Valor uses only Low VOC (volatile organic content) waterbase paint. We've selected paint specifically developed to provide superior adhesion to plastic substrates and hardness. Valor has applied this product since 2006 with excellent results.

Process

All products go through a multi-stage preparation process to ensure superior adhesion to the product.

Application

Valor utilizes the most advance HVLP guns for application of paint. Some colour pigments require multiple wet coats where each coat needs to fully flash off before the next coat can be applied. Some colours will be applied at a premium to cover any additional costs.

**Heat Reflective**

Darker colours will have a heat reflective additive to reduce surface temperatures intended to reduce warping and expansion.

Gloss Level

Our paint is ordered with a 60% gloss, although we have specified large projects using material with larger surface area in MATT finish that would be approximately at 40% gloss.

Protection

All painted product is protected as required, with poly wrap, self-adhesive film, foam, or cardboard.

Paint Match

We can match any colour however due to match cost and the amount of paint required, we will charge a paint match fee.

Projects

Projects that will use greater than a gallon of paint will generally not have extra charges, however minimum charges will always apply.
