## Standard PVC Shutter Colours

We are pleased to offer all our PVC accessories with the most advanced waterbase paint technology featuring exceptionally low VOC (volatile organic compound) content guarantees that the coating itself will not affect the surface chemistry of the vinyl itself, thus providing no changes to the performance of the vinyl (no brittleness developed over time). The continued use of Inorganic Pigments provides exceptional heat reflectance along with unparalleled long term color/gloss retention. This proven coating system produces bonds as good as high solvent coatings, while offering a safer environment, superior performance and color retention.

*Choose from one of our standard colours.*

**BRICK RED**  
(6819)
